SOLUBLE PACIFIC GUANO.

THE COMPOSITION OF THIS GUANO IS IDEN-TICAL WITH PERUVIAN. IT DIFFERS ONLY IN THE PROPORTIONS OF THE SAME ELEMENTS.

SAME ELEMENTS.

WHILE IT CONTAINS LESS AMMONIA, IT HAS nearly twice the quantity of Phosphate of Lime; 15 per cent. of which is immediately soluble. Its effects on Cotton the past season have, in many instances, excelled Peruvian Guano. It has in no case proved less active in the early growth of the crop. When drought intervenes the crop does not suffer from its use as is the case with Pernvian Guano. By reason of the presence in it of so large a per cent. of Phosphate of Lime its use improves the soil to an extent that cannot be realized from Peruvian Guano.

Peruvian Guano.

Every cargo of this Guano is subjected to rigid inspection analysis, and is sold on a basis of actual value.

The undersigned, Agent, is prepared to furnish the testimony of well known south Carolina planters in evidence of the superior excellence of this Guano.
